

How To Change Your Mouse From A Right-Handed Mouse To A Left-Handed Mouse

1. Click on the Start button (with your left mouse button)
2. Click on the Control Panel (with your left mouse button)
3. Double Click on the Mouse item (with your left mouse button)
4. Notice the notebook tabs at the top of the window – click on the Buttons tab (with your left mouse button)
5. Click on the Left-Handed radio button (to darken it or select it) (with your left mouse button)
6. Click on the OK button at the bottom (to do so, you will now have to click on your **right** mouse button)
7. To exit the Control Panel, click on the X in the upper right corner of the window (with your **right** mouse button)
